LOGNOTE -- Chief, Operations Group, 20 June 1986

1. Following topics were discussed at yesterday's D/FBIS staff meeting:

25X1

- Regarding the move to Reston, a copy of the first "footprint" of the planned third building in the Reston complex was passed out to all attendees. Included in the building design is a request for 10,000 sq feet of space for NEAD/Prod. The Steering Committee has also announced that FBIS plans to move people into Reston beginning 1 March 1987.
- D/FBIS announced that ORD will be offering a presentation for FBIS on 18 July in which a number of projects related to FBIS requirements will be discussed, including RUBRIC, Digital Signal Processing, and several artificial intelligence-driven programs. More details to follow.
- FED showed a videotape done in connection with the recent activation of the Paraguay Bureau associate ROSET. I plan to conduct a showing for all interested Ops Group officers within the next two weeks.
